MR. BLAIR AGAIN ASSAILS THE PRESS.

SENATE'S SMELLING COMMITTEE

Mr. Dolph Subjects Senators to an Inquisition That Enlightens Nobody on the Subject of Secret Session

WASHINGTON, March 8 .- Mr. Blair again entertained the senate yesterday afternoon with a vigorous defense of his pet educational bill, which has of late been assailed by such distinguished Republican senators as Messrs. Spooner, Plumb and Hale. Mr. Blair said he was not mistaken as to the source from which most of the misrepresentation at the north had come. The Jesuitical

even a newspaper man in New York could find out nothing from the press there about the bill.

A Truculent Press The New York papers, Mr. Blair declared, were monopolies of the worst kind and the country papers had been perverted and poisoned by them. Even the Republican party in the north had been induced by misrepresentations to turn its back in the natural impulses of republicanism and oppose the bill, but when it got the facts, as it would some day, that truculent press would tell a different story.

day, that truculent press would tell a different story.

He spoke of The Boston Globe and Herald as opposed to the bill and said every Democratic paper in New York city had once supported it, naming in that connection The Herald, World, Times and Evening Post. Inconclusion, Mr. Blair said he had further statements to make on another occasion and that to make on another occasion and that Mr. Higgins would speak in support of the bill on Monday.

That Smelling Committee. WASHINGTON, March S.—Mr. Dolph having discovered from the drift of debate that nothing could be done at present with his resolutions anent the leakage of senate secrets called his com-mittee together again and the matter was discussed for nearly an hour in all of its various bearings. The result of the discussion was that the committee decided before going any further to call all of the members of the senate before them as witnesses and question them under oath as to the divulgence of exe-

cutive secrets.

number of others. Various Constructions of the Rules. There were some amusing scenes in the committee room and in the ante room during the examination of the senatorial witnesses. It developed that the interpretation placed upon the rules by senators differed in some material points. Some of the senators held, for example, that they were entitled to inform any one they pleased of the confirmation or rejection of a nomination whether the action of the senate had "been made public or not." Senator Harris said that he often telegraphed a man telling him of his confirmation without waiting for the senate to notify the president. Some of the senators the president.
